## **Independent Auditor's Report**

The Board of Directors  
American Life & Security Corp.

### **Report on the Financial Statements**

We have audited the accompanying statutory financial statements of American Life & Security Corp. (the Company), which comprise the statutory statements of admitted assets, liabilities, and capital stock and surplus of American Life & Security Corp. as of December 31, 2014 and 2013, and the related statutory statements of operations, capital stock and surplus, and cash flows for the years then ended and the related notes to the statutory financial statements.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these statutory financial statements in accordance with the accounting practices prescribed or permitted by the Insurance Department of the State of Arizona; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of statutory financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these statutory financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statutory financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the statutory financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the statutory financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the statutory financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the statutory financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles**

As described in Note 2 to the statutory financial statements, American Life & Security Corp. prepared these financial statements using accounting practices prescribed or permitted by the Insurance Department of the State of Arizona, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these statutory accounting practices and accounting principles generally accepted in the United States of America are material and are described in Note 2.

### **Adverse Opinion on U.S. Generally Accepted Accounting Principles**

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of American Life & Security Corp. and its subsidiaries as of December 31, 2014 and 2013, or the results of its operations or its cash flows thereof for the years then ended.

### **Opinion on Regulatory Basis of Accounting**

In our opinion, the statutory financial statements referred to above present fairly, in all material respects, the admitted assets, liabilities, and capital and surplus of American Life & Security Corp. as of December 31, 2014 and 2013, and the results of its operations and its cash flows for the years then ended, on the basis of accounting described in Note 2.

### **Report on Supplemental Schedules**

Our audits were conducted for the purpose of forming an opinion on the basic statutory financial statements taken as a whole. The accompanying Supplemental Summary Investment Schedule as of December 31, 2014 and Supplemental Investment Risks Interrogatories and Selected Financial Data as of December 31, 2014 and for the year then ended (Supplemental Schedules) are presented for purposes of additional analysis and are not a required part of the basic statutory financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the statutory financial statements. The effects on the Supplemental Schedules of the variances between the statutory accounting practices and accounting principles generally accepted in the United States of America are material and are described in Note 2. As a consequence, the Supplemental Schedules do not present fairly, in conformity with accounting principles generally accepted in the United States of America, such information of the Company as of December 31, 2014 and for the year then ended. The Supplemental Schedules have been subjected to the auditing procedures applied in the audit of the statutory financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the statutory financial statements or to the statutory financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplemental Schedules are fairly stated in all material respects in relation to the statutory financial statements taken as a whole.

## American Life & Security Corp.

### Notes to Statutory Financial Statements

---

#### Note 1. Company Overview

American Life & Security Corp. (American Life or the Company) is a wholly-owned subsidiary of Midwest Holding Inc. (Midwest). The Company is the surviving entity of the August 2011 merger of Old Reliance Insurance Company (Old Reliance) and American Life & Security Corp. Old Reliance was a Life and Accident and Health Insurance Company organized in 1960 under the laws of the State of Arizona.

Immediately following the purchase, Midwest merged American Life into Old Reliance and renamed the new entity American Life & Security Corp. As a result of the transaction, American Life was domiciled in the state of Arizona. The Company is licensed in fourteen states and engaged in the business of underwriting, selling, and servicing life insurance and annuity policies.

The Company owns 100% of the common stock of Capital Reserve Life Insurance Company (Capital Reserve). Capital Reserve is a stock life insurance company domiciled in Missouri and is authorized to write business in Missouri and Kansas. The Company purchased Capital Reserve on June 20, 2010 for \$1,956,433.

The Company owns 100% of the common stock of Great Plains Life Assurance Company (Great Plains). Great Plains is a stock life insurance company domiciled in South Dakota and is authorized to write business in South Dakota. The Company obtained Great Plains through a capital contribution of \$3,200,000 after the merger of Great Plains Financial into Midwest.

#### Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying statutory financial statements of the Company have been prepared in conformity with accounting practices prescribed or permitted by the Arizona Department of Insurance, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). Prescribed statutory accounting policies include a variety of publications of the National Association of Insurance Commissioners (NAIC), as well as state laws, regulations, and general administrative rules. Permitted statutory accounting practices encompass all accounting policies other than those prescribed. The NAIC *Accounting Practices and Procedures Manual (NAIC SAP) version 2014, effective March 1, 2014*, has been adopted as a component of prescribed practices by the State of Arizona. The Company does not employ any practices not prescribed by the NAIC or the Arizona Department of Insurance in the preparation of its statutory financial statements.

The more significant differences between statutory accounting practices and GAAP are as follows:

- Investments in bonds with an NAIC rating of 1 through 5 are carried at amortized cost; whereas bonds with an NAIC rating of 6 are written down to the lower of amortized cost or fair value by charging statutory surplus. Under GAAP, bonds are classified into three categories: held to maturity, available for sale, or trading. Bonds held to maturity are stated at amortized cost; bonds available for sale are stated at fair value and the resulting unrealized gains or losses, net of applicable income taxes, are charged or credited to capital and surplus; and bonds held for trading are reported at fair value and the resulting unrealized gains and losses are reported in earnings.

The fair value of investments on a statutory basis is determined by the SVO, where as for GAAP, the fair value of investments is determined based on the expected exit price.

## American Life & Security Corp.

### Notes to Statutory Financial Statements

---

#### Note 2. Summary of Significant Accounting Policies (Continued)

- Assets having economic value other than those that can be used to fulfill policyholder obligations are categorized as “nonadmitted assets” and are not permitted to be included in the statutory financial statements of admitted assets, liabilities, and capital and surplus, whereas, for GAAP, these assets are recognized in the balance sheet. Included with nonadmitted assets are furniture, equipment and supplies, prepaid expenses, receivables over 90 days outstanding, certain deferred tax assets and other items that do not meet statutory criteria for admitted assets.
- Deferred federal income taxes are provided for the tax effects of certain income and expense items recognized for income tax purposes in different years than for financial reporting purposes. The change in the deferred tax asset or liability is reflected in capital and surplus. GAAP requires the change to be reported in earnings. Admittance testing may result in a charge to capital and surplus for nonadmitted portions of the deferred tax asset. State taxes are not considered for statutory purposes in calculating a deferred tax asset or liability, however, they are considered for GAAP purposes.
- Both statutory and GAAP guidance requires a valuation allowance be established where the deferred tax asset is reduced, if based on the weight of available evidence it is more likely than not that some portion or all of a gross deferred tax asset will not be realized, to its realizable value. Changes in valuation allowance are reported in a similar manner to which changes in deferred tax assets and liabilities are reported, as noted above.
- The statutory financial statements are presented net of the effects of reinsurance, whereas, for GAAP, the financial statements are presented gross of the effects of reinsurance.
- Deferred and uncollected premiums represent premiums receivable in installments (semiannually, quarterly, and monthly) not yet due or collected, but for which policy reserves based on full annual premiums have been provided. Such premiums are reported net of loading expenses, whereas for GAAP, such balances are reported gross.
- Benefits for universal life policies and annuity contracts consist of premiums received as opposed to GAAP, which records policy and contract fees charged for the cost of insurance, policy administrative charges, amortization of policy initiation fees, and surrender contract charges as revenues.
- Premium receipts and benefits on universal life policies and annuities are recorded as revenue and expense for statutory purposes. Under GAAP, revenues on universal life policies comprised of contract charges and fees, which are recognized when assessed against the policyholder’s account balance. Additionally, under GAAP, premium receipts on universal life policies and annuities are considered deposits and are recorded as interest-bearing liabilities.
- Capital contributions can be made after the reporting period and, with approval from the Arizona Commissioner of Insurance, can be classified as capital contributions for a prior reporting period for statutory purposes. Under GAAP, these capital contributions are recorded as capital contributions on the date they are made.
- Incremental direct costs of contract acquisition that result directly from and are essential to the contract transaction, and would not have been incurred by the insurance entity had the transaction not occurred, are charged against statutory earnings as such costs are incurred, while under GAAP, such costs, to the extent recoverable, would be deferred and amortized over the effective periods covered by the related contracts.

## American Life & Security Corp.

### Notes to Statutory Financial Statements

---

#### Note 2. Summary of Significant Accounting Policies (Continued)

- Commissions allowed by reinsurers on business ceded are reported as income when received rather than being deferred and, to the extent recoverable, amortized with deferred policy acquisition costs, as required under GAAP.
- Comprehensive income is not determined for statutory reporting purposes, whereas, for GAAP, such income is presented.
- The statutory statement of cash flows differs in certain respects from the presentation required within GAAP literature, including the presentation of changes in cash and short-term investments instead of cash and cash equivalents. Short-term investments include securities with original maturities of one year or less. For GAAP, cash equivalents include highly liquid investments with a maturity of three months or less at acquisition. Further, GAAP requires the presentation of a reconciliation of net income to cash provided by operating activities.
- The statutory financial statements are prepared in a form using language and groupings substantially the same as the annual statements of the Company filed with the NAIC and the state regulatory authorities, which differ from the presentation and disclosures of financial statements presented under GAAP reporting.
- The accounts of wholly-owned subsidiaries are not consolidated with those of the Company as would be required under GAAP but are recorded at the equity of statutory basis net assets. Under STAT, goodwill created from a statutory merger is limited in the aggregate to 10% of the acquiring entity's statutory capital and surplus. Goodwill is amortized to unrealized gains and losses over a period not to exceed 10 years. Under GAAP, goodwill is not subject to any such limitation and there is no amortization of goodwill. Under both STAT and GAAP, goodwill is subject to periodic impairment evaluation.
- The Company is required to establish an asset valuation reserve (AVR) and an interest maintenance reserve (IMR). The AVR provides for a standardized statutory investment valuation reserve for bonds, common stocks, mortgage loans, short-term investments, and other invested assets. Changes in this reserve are recorded as charges or credits to capital and surplus. The IMR is designed to defer net realized capital gains and losses resulting from changes in interest rates in the market and to amortize them into income over the remaining life of the bond or mortgage loan sold. The IMR represents the unamortized portion not yet taken into income. AVR and IMR are not recorded for GAAP.
- The statutory financial statements present surplus notes as a component of capital stock and surplus, whereas, for GAAP, the financial statements present surplus notes as a liability.

## American Life & Security Corp.

### Notes to Statutory Financial Statements

#### Note 2. Summary of Significant Accounting Policies (Continued)

A reconciliation of net income and capital and surplus, as presented in the accompanying statutory financial statements, and GAAP as of and for the years ended December 31, 2014 and 2013 is as follows:

	Net Loss		Capital and Surplus	
	2014	2013	2014	2013
Amounts stated in conformity with NAIC SAP	\$ (1,465,181)	\$ (20,497)	\$ 2,429,604	\$ 1,865,200
Gains on sales of investments, net of IMR amortization	105,623	34,142	151,988	197,641
Asset valuation reserve	-	-	82,309	76,331
Investments	(53,332)	(615,490)	315,375	(510,470)
DAC	(49,791)	(78,722)	2,474,779	2,524,570
Nonadmitted assets	-	-	2,120,341	117,485
Surplus notes	-	-	(550,000)	(550,000)
VOBA	(88,385)	(142,786)	733,386	821,771
Intangible assets	-	-	700,000	700,000
Goodwill	-	-	1,129,824	1,129,824
Property and equipment	(52,252)	(52,253)	95,000	147,252
Carrying value of reserves	(73,676)	(77,218)	(2,305,115)	(2,231,439)
Accrued expenses	-	-	(280,639)	-
Invested assets	-	-	(210,455)	-
Due and deferred premiums	-	-	271,153	-
Miscellaneous	(7,261)	437,254	70,242	(27,657)
Amounts stated in conformity with GAAP	\$ (1,684,255)	\$ (515,570)	\$ 7,227,792	\$ 4,260,508

**Risk and uncertainties:** Certain risks and uncertainties are inherent in the Company's day-to-day operations and in the process of preparing its statutory financial statements. The more significant of those risks and uncertainties, as well as the Company's method for mitigating the risks, are presented below and throughout the notes to the statutory financial statements.

- *Use of Estimates* – The preparation of statutory financial statements requires management to make estimates and assumptions that affect the reported amounts of admitted assets and liabilities and disclosure of contingent assets and liabilities at the date of the statutory financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
- *Reinsurance* – Reinsurance contracts do not relieve the Company from its obligations to insureds. Failure of reinsurers to honor their obligations could result in losses to the Company. The Company evaluates the financial condition of its reinsurers to minimize its exposure to losses from reinsurer insolvencies. Management believes that any liability arising from this contingency would not be material to the Company's financial position.
- *Investments* – The Company is exposed to risks that issuers of securities owned by the Company will default or that interest rates will change and cause a decrease in the market value of its investments.

## American Life & Security Corp.

### Notes to Statutory Financial Statements

#### Note 2. Summary of Significant Accounting Policies (Continued)

- Loss Reserves* – The reserves for policy and contract claims consist of case-basis estimates for reported claims and estimates for unreported claims based on past claims-reporting experience. The management of the Company believes reserves for policy and contract claims are adequate to cover the ultimate liability. However, the ultimate claim costs may vary from the amounts presently provided.
- External Factors* – The Company is highly regulated by the state in which it is domiciled. Such regulations, among other things, may limit the amount of rate increases on policies and impose restrictions on the amount and type of investments made and the minimum surplus required to conduct business in the state. The impact of regulatory initiatives in response to the recent financial crisis, including the Dodd-Frank Wall Street Reform and Consumer Protection Act, could subject the Company to substantial additional regulation.
- Risk-Based Capital* – The NAIC has developed life risk-based capital (RBC) standards that relate an insurer's reported statutory surplus to the risks inherent in its overall operations. The RBC formula uses the statutory annual statement to calculate the minimum indicated surplus level to protect the Company from various risks that it faces. The NAIC model law calls for various levels of regulatory action based on the magnitude of an indicated RBC capital deficiency, if any. The Company continues to monitor its internal requirements and the NAIC's RBC requirements. Management believes that the Company's surplus levels are sufficient to support the level of risk inherent in its operations with plans to decrease the RBC impact by disposing of the common stock in Midwest in 2015. The Company's and Capital Reserves' investment in Midwest were sold in Q1 2015 and Q2 2015, respectively.

The credit quality of the bond portfolio at December 31, 2014 and 2013 is presented in the following table:

	2014		2013	
	Amortized Cost	Percentage	Amortized Cost	Percentage
Class 1 - highest quality	\$ 6,216,315	51%	\$ 8,467,566	83%
Class 2 - high quality	5,230,832	43%	1,783,608	17%
Class 3 - medium quality	728,353	6%	-	0%
Class 4 - low quality	-	0%	-	0%
Class 5 - lower quality	-	0%	-	0%
Class 6 - in or near default	-	0%	-	0%
	<b>12,175,500</b>	<b>100%</b>	10,251,174	100%
Class 3 - Non-admitted	(541,833)	-	-	-
	<b>\$ 11,633,667</b>	<b>100%</b>	\$ 10,251,174	100%

Bonds with ratings from AAA to BBB as assigned by Standard & Poor's Corporation are generally considered as investment grade securities. Some securities issued by the U.S. government or an agency thereof are not rated but are considered to be investment grade. The NAIC regards U.S. Treasuries and agencies and all A ratings as Class 1 (highest quality), BBB ratings as Class 2 (high quality), BB ratings as Class 3 (medium quality), B ratings as Class 4 (low quality), C ratings as Class 5 (lower quality), and D ratings as Class 6 (in or near default).

## American Life & Security Corp.

### Notes to Statutory Financial Statements

#### Note 2. Summary of Significant Accounting Policies (Continued)

Investments: Investments are valued as prescribed by the NAIC and are generally reported as follows:

- Bonds and redeemable preferred stocks assigned an NAIC rating of 1 to 5 are recorded at amortized cost using the scientific method (constant yield method) with bonds containing a call provision being amortized to the call or maturity date, whichever results in a lower asset value. Bonds and redeemable preferred stocks assigned a rating by NAIC of 6 are adjusted to the lower of amortized cost or fair value as published by the NAIC, with the offset reported as a change in capital and surplus.

The State of Arizona Directors Order #00A-123-INS, states non-investment grade securities are limited to the lesser of 20% of admitted assets or 200% of capital and surplus, and non-investment grade investments in a single issuer are limited to 5% of the overall non-investment grade limitation. This applies to bond investments with a NAIC rating of 3 to 6 provided by the SVO.

- Redeemable preferred stocks are stated at the lower amortized cost or NAIC fair values. Perpetual preferred stocks are carried at NAIC fair value.
- Common stock investments in noninsurance Subsidiary, Controlled and Affiliated (SCA) entities are either a subsidiary or a parent. Common stocks of subsidiaries are carried at book equity value per the NAIC SSAP No. 97 Section 8.a.i. plus unamortized goodwill. Common stocks of a parent are adjusted to the underlying adjusted audited U.S. GAAP equity per SSAP No. 97, Section 9.
- Mortgage loans are carried at the aggregate unpaid principal balance. The portion of loans in excess of 80% of the loan to value ratio are nonadmitted. Management believes that the Company's historic collection experience supports this practice.
- Properties held for the production of income is comprised of ten condominiums in Hawaii. The Company provides for depreciation of properties held for the production of income using the straight-line method over 50 years which is the estimated useful life of the assets. Expenditures resulting in significant betterment or improvement to a property are included in the cost of the property. Repairs and renewals of a minor nature are charged to operations as incurred. Depreciation expense was \$12,040 for the years ended December 31, 2014 and 2013.
- Policy loans are recorded at the aggregate unpaid balances and are collateralized by the cash surrender value of the policyholder's underlying life insurance policy.
- Stocks of insurance affiliates in which the Company has an interest of 10% or more are recorded based on the underlying audited statutory equity of the respective entities' financial statements. The change in the stated value is recorded as a change in net unrealized capital gains (losses), a component of unassigned surplus.

The assessment of other-than-temporary impairments is performed on a case-by-case basis. Factors considered by management in determining whether an other-than-temporary impairment exists (in other than loan-backed or structured investment securities) include: the financial condition, business prospects and creditworthiness of the issuer, the length of time and extent to which fair value has been less than cost for equity securities or amortized cost for fixed income securities, and the Company's intent and ability to retain such investments until the fair value recovers. If it is determined that the decline in fair market value is other than temporary, the carrying amount of the investment is written down to fair value as its new basis and the amount of the write-down is recorded as a realized loss.

## American Life & Security Corp.

### Notes to Statutory Financial Statements

---

#### Note 2. Summary of Significant Accounting Policies (Continued)

Investment income consists primarily of interest and dividends. Interest is recognized on the accrual basis and dividends, if any are incurred, are recorded as earned at the ex-dividend date for stocks other than mandatorily redeemable, preferred stocks which are accrued to the redemption price.

Dividends or distributions received from affiliates are recognized in investment income when declared to the extent that they are not in excess of the undistributed accumulated earnings attributable to the investee. Dividends or distributions declared in excess of the undistributed accumulated earnings attributable to the investee shall reduce the carrying amount of the investment.

Investment income due and accrued 90 days past due is nonadmitted. There was no investment income due and accrued excluded from capital and surplus at December 31, 2014 and 2013.

Realized gains and losses on securities transactions are determined on a specific identification basis and are included in the statutory statements of operations, net of federal income tax, subject to the provisions of the interest maintenance reserve.

The Company may, from time to time, sell invested assets subsequent to the financial statement date that were considered temporarily impaired at the financial statement date for several reasons. For all subsequent sales of invested assets that were considered temporarily impaired at the financial statement date, the Company contemporaneously documents its rationale for its change in intent or ability to hold to recovery. The rationale for the change in the Company's ability or intent generally focuses on changes in the economic facts and circumstances related to the invested asset subsequent to the financial statement date, significant unforeseen changes in the Company's liquidity needs, or changes in tax laws or the regulatory environment.

Cash and short-term investments: Cash and short-term investments consist of cash on deposit with financial institutions and investments with original maturities of less than one year at the date of acquisition. These investments are carried at cost, which approximates fair value. At December 31, 2014 and 2013, the Company had substantially all of its cash on deposit with a bank and had no short-term investments. The Company has cash on deposit with financial institutions which at times may exceed the Federal Deposit Insurance Corporation limits. The Company has not suffered any losses in the past and does not believe it is exposed to any significant credit risk in these balances.

Revenue recognition and related expenses: Life premiums are recognized as income over the premium-paying period of the related policies. Premium income includes reinsurance assumed and is reduced by premiums ceded. Increases in policy benefit reserves, policy acquisition costs, and other period expenses are charged to operations as incurred. Reinsurance commissions, administration, and expense allowances are recognized when incurred in accordance with the contract terms.

Reserves: Policy reserves for traditional and flexible premium insurance are computed principally by using the commissioners' reserve valuation method (CRVM) or the net level premium method with assumed interest rates and mortality as prescribed by regulatory authorities. Tabular interest, tabular less actual reserves released, and tabular cost for all life contracts are determined based upon statutory regulations.

The Company's deposit-type contracts are supplemental contracts, dividends, and premiums on deposit and are reported as policyholder funds left on deposit. Premiums on deposit relate to life products. Interest on deposit-type funds is compounded annually.

## American Life & Security Corp.

### Notes to Statutory Financial Statements

---

#### Note 2. Summary of Significant Accounting Policies (Continued)

Policy reserves for life insurance include claim reserves and unearned premiums. Claims reserves, including incurred but not reported claims, represent management's estimate of the ultimate liability associated with unpaid policy claims, based upon analysis of past experience. To the extent that the ultimate liability differs from the amounts recorded, such differences are reflected in operations when additional information becomes known.

The Company records a premium deficiency reserve when it is established that future premium and current reserves are not sufficient to cover future claim payments and expenses on individual insurance programs. The Company currently does not have a premium deficiency reserve.

Property, furniture, fixtures, equipment and leasehold improvements: Property and equipment are carried at cost less accumulated depreciation. The Company provides for depreciation of property and equipment using the straight-line method over the estimated useful lives of the assets. Furniture and fixtures are generally depreciated over 3 to 10 years. Depreciation expense was \$78,580 and \$65,885, respectively, for the years ended December 31, 2014 and 2013. Certain property and equipment is nonadmitted through a charge against capital and surplus. Maintenance and repairs are charged to expense as incurred.

Federal income taxes: Current income taxes incurred are recognized in the statutory statements of operations based on tax returns for the current year and tax contingencies for the current and all prior years, to the extent not previously provided.

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the statutory financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Gross deferred tax assets and liabilities are measured using enacted tax rates and are considered for admitted asset status according to the admissibility tests as set forth by the NAIC. Changes in deferred tax assets and deferred tax liabilities, including changes attributable to changes in tax rates, are recognized as a component of unassigned surplus.

Gross deferred income tax assets are reduced by a valuation allowance if the Company determines it is more likely than not that some portion or all of the gross deferred tax assets will not be realized. Adjusted deferred income tax assets are limited to (1) the amount of federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse during a timeframe corresponding with IRS tax loss carryback provisions, not to exceed three years, plus (2) the lesser of the remaining gross deferred income tax assets expected to be realized within three years of the balance sheet date or 15% of capital and surplus (subject to certain limitations), excluding any net deferred income tax assets, electronic data processing equipment and operating software and any net positive goodwill, plus (3) the amount of remaining gross deferred income tax assets that can be offset against existing deferred income tax liabilities. The remaining deferred income tax assets in excess of the above are non-admitted. Deferred income taxes do not include amounts for state taxes.

Asset Valuation Reserve and Interest Maintenance Reserve: An Asset Valuation Reserve (AVR) is maintained as prescribed by the NAIC for the purpose of stabilizing the surplus of the Company against fluctuations in the market value of assets.

An Interest Maintenance Reserve (IMR) is maintained as prescribed by the NAIC for the purpose of stabilizing the surplus of the Company against gains and losses on sales of fixed income investments that are primarily attributable to changing interest rates. The interest-related gains and losses are deferred and amortized into income over the remaining term of the securities that were sold.

## American Life & Security Corp.

### Notes to Statutory Financial Statements

---

#### Note 2. Summary of Significant Accounting Policies (Continued)

Fair values of financial instruments: The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

- *Cash and Short-Term Investments* – The carrying amounts for these instruments approximate their fair values due to their short duration to maturity.
- *Bonds* – The fair values for bonds are based on NAIC-prescribed market values or quoted market prices, where available.
- *Preferred Stocks* – The fair values are based on quoted market prices.
- *Common Stocks of Affiliates* – The fair values of common stocks of affiliates approximate carrying value and are invested in privately-held life insurance companies. These securities have no active trading. The carrying value of common stocks of affiliates is recorded as the underlying equity of affiliates.
- *Policy Loans* – Policy loans are stated at unpaid principal balances.
- *Mortgage Loans on Real Estate* – The fair values of mortgage loans on real estate, held for investment are estimated by discounting scheduled cash flows through the scheduled maturities of the loans, using interest rates currently being offered for similar loans to borrowers with similar credit ratings. As part of the Old Reliance purchase agreement, the seller guaranteed the performance of the mortgage loans and accordingly the Company believes book value is equal to fair value. The Company periodically evaluates the financial condition of the seller and his guarantee. The Company knows of no circumstances that would indicate that the guarantor would be unable to perform nor are any loans non-performing such that his guarantee would be triggered.
- *Liability for Deposit-Type Contracts* – The carrying values of the liability for deposit-type contracts is assumed to be fair value. The Company does not believe an estimate of the fair value of the liability for deposit-type contracts can be made without incurring excessive costs. Because of the numerous assumptions that would have to be made to estimate fair value, the Company believes that such information would not be meaningful.

Reclassification: Certain reclassifications were made to the prior year financial statements to conform to the current year's presentation with no effect on net income (loss) or capital stock and surplus.

The majority of the unrealized losses on securities are due to interest rate changes and market segments that are experiencing temporary value declines. The Company regularly monitors its investment portfolio for securities where the unrealized losses may indicate an other-than-temporary impairment (OTTI) in the value of its securities. This review for impairment considers a number of qualitative factors, as well as significant management judgment. There were no realized losses due to OTTI at December 31, 2014 and 2013.

Mortgage loans	<b>308,477</b>	<b>346,792</b>	642,327	690,591
Policy loans	<b>374,186</b>	<b>374,186</b>	368,404	368,404
Cash	<b>733,585</b>	<b>733,585</b>	596,504	596,504
Financial liabilities:				
Liability for deposit-type contracts	<b>299,648</b>	<b>299,648</b>	369,915	369,915

The Company has no other assets or liabilities meeting the definition of a financial instrument. In addition, the Company has no off-balance-sheet financial instruments.

## American Life & Security Corp.

### Notes to Statutory Financial Statements

---

#### Note 5. Fair Value of Financial Instruments (Continued)

The Company's financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The hierarchy gives the highest priority to fair values determined using unadjusted quote prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to fair values determined using unobservable inputs (Level 3). An asset's or liability's classification is determined based on the lowest level input that is significant to its measurement. For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3). The levels of the fair value hierarchy are as follows:

*Level 1* – Unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

*Level 2* – Valuations derived from inputs other than quoted market prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- a) Quoted prices for similar assets or liabilities in active markets.
- b) Quoted prices for identical or similar assets or liabilities in markets that are not active.
- c) Inputs other than quoted prices that are observable for the asset or liability.
- d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

*Level 3* – Valuations are derived from techniques that require significant unobservable inputs. The unobservable inputs reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

There were no financial instruments measured at fair value as of December 31, 2014.

#### Note 6. Reinsurance

**The Company utilizes reinsurance contracts to reduce its exposure to losses in all aspects of its insurance business. Such reinsurance permits recovery of a portion of losses from reinsurers, although it does not relieve the Company from its primary liability to policyholders. Failure of reinsurers to honor their obligations could result in losses to the Company. The Company evaluates the financial strength of potential reinsurers and continually monitors the financial condition of reinsurers.**

**Amounts recoverable from reinsurers are estimated based upon assumptions consistent with those used in establishing the liabilities related to the underlying reinsured contracts. Management believes the recoverables are appropriately established. The Company generally strives to diversify its credit risks related to reinsurance ceded.**

**A summary of reinsurance amounts affecting the accompanying statutory financial statements follows:**

	2014		2013	
	Written	Earned	Written	Earned
Direct	\$ 4,413,342	\$ 4,413,342	\$ 4,710,181	\$ 4,710,181
Assumed	36,816	36,816	31,220	31,220
Ceded	(95,543)	(95,543)	(99,397)	(99,397)
Net	<u>\$ 4,354,615</u>	<u>\$ 4,354,615</u>	<u>\$ 4,642,004</u>	<u>\$ 4,642,004</u>

## American Life & Security Corp.

### Notes to Statutory Financial Statements

---

#### Note 6. Reinsurance (Continued)

The following table provides a summary of the significant reinsurance balances recoverable on paid and unpaid losses by reinsurers, along with the A.M. Best credit rating:

Reinsurer	Credit Rating	Recoverable on Paid Losses	Recoverable on Unpaid Losses
Optimum Re Insurance Company	A-	\$ -	\$ 11,000
Sagicor Life Insurance Company	A-	-	659,458
		<u>\$ -</u>	<u>\$ 670,458</u>

#### Note 7. Deposit Liabilities

Withdrawal characteristics of deposit-type contracts and other contracts with life contingencies are as follows at December 31, 2014 and 2013:

	2014	2013
Subject to discretionary withdrawal without surrender charge or market value adjustment	\$ 299,648	\$ 369,915
Not subject to withdrawal	-	-
Total	<u>\$ 299,648</u>	<u>\$ 369,915</u>

The Company holds a reserve for the nondeduction of deferred fractional premiums or return of premium at the death of the insured. Reserves are computed to be never less than the surrender value defined in the policy.

Extra premiums are charged for substandard lives for certain types of policies, plus the gross premium for the true age. Mean reserves are determined by computing the regular mean reserve for the plan and holding, in addition, one-half of the extra premium charged. For the other groups of policies, substandard lives are issued policies with initially reduced death benefit schedules that increase with duration to the ultimate amount. Mean reserves are determined by computing the regular mean reserve for the ultimate face amount.

At December 31, 2014 and 2013, the amount of \$299,648 and \$369,915, respectively, reported as deposit-type funds, relates to supplemental contracts, dividends, and premiums on deposit and are reported as policyholder funds left on deposit in the statutory statements of admitted assets, liabilities, and surplus.

## American Life & Security Corp.

### Notes to Statutory Financial Statements

#### Note 8. Premiums and Annuity Considerations Deferred and Uncollected

Deferred and uncollected life insurance premiums and annuity considerations as of December 31, 2014 and 2013 were as follows:

	2014		2013	
	Gross	Net of Loading	Gross	Net of Loading
Ordinary - first year due and deferred	\$ 10,354	\$ 3,894	\$ 35,870	\$ 13,491
Ordinary - renewal due and deferred	295,969	164,765	270,644	157,340
Total	\$ 306,323	\$ 168,659	\$ 306,514	\$ 170,831

#### Note 9. Transactions with Affiliates

The Company has a cost sharing agreement with its parent company Midwest Holding Inc. Under the terms of this cost sharing agreement, the Company paid Midwest Holding Inc. the amount of \$1,033,500 and \$734,641 and had a payable of \$59,088 and a receivable of \$147,197 for the years ended December 31, 2014 and 2013, respectively. These transactions are settled monthly.

The Company received a contribution in the amount of \$1,000,000 from Midwest Holding Inc. and a \$3,239,747 capital contribution of Great Plains Life as part of the merger between Midwest Holding Inc. and Great Plains Financial. The Company contributed \$225,000 to Capital Reserve.

Great Plains cedes premiums of \$8,706 and reserves of \$19,273 to the Company.

#### Note 10. Income Taxes

At December 31, the components of the net adjusted admitted deferred income tax asset were as follows:

	12/31/2014			12/31/2013			Change		
	Ordinary	Capital	Total	Ordinary	Capital	Total	Ordinary	Capital	Total
Gross deferred tax assets	\$ 3,297,409	\$ -	\$ 3,297,409	\$ 2,100,511	\$ -	\$ 2,100,511	\$ 1,196,898	\$ -	\$ 1,196,898
Statutory valuation allowance	3,240,065	-	3,240,065	2,042,428	-	2,042,428	1,197,637	-	1,197,637
Adjusted gross deferred tax assets	57,344	-	57,344	58,083	-	58,083	(739)	-	(739)
Deferred tax assets nonadmitted	-	-	-	-	-	-	-	-	-
Net admitted deferred tax asset	57,344	-	57,344	58,083	-	58,083	(739)	-	(739)
Deferred tax liabilities	57,344	-	57,344	58,083	-	58,083	(739)	-	(739)
Net adjusted deferred tax asset	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -

At December 31, 2014 and 2013, the Company recorded a valuation allowance on the deferred tax assets to reduce the total to an amount that management believes will ultimately be realized. Realization of deferred tax assets is dependent upon sufficient future taxable income during the period that deductible temporary differences and carryforwards are expected to be available to reduce taxable income.

**American Life & Security Corp.**

**Notes to Statutory Financial Statements**

**Note 10. Income Taxes (continued)**

The significant components, by character, of deferred tax assets and liabilities as of December 31, 2014 and 2013, were as follows:

	December 31, 2014			
	Statutory	Tax	Difference	Tax Effect
<b>Deferred tax assets - ordinary</b>				
Net operating loss carry forward	\$ -	\$ 6,877,589	\$ 6,877,589	\$ 2,338,380

Current income taxes incurred consist of the following major components:

	<b>2014</b>	2013
Current year tax expense (benefit)		
Federal income tax (benefit)	<b>\$ (1,197,637)</b>	\$ 263,741
Change in statutory valuation allowance	<b>1,197,637</b>	(263,741)
Current income tax (benefit)	<b>\$ -</b>	\$ -

## American Life & Security Corp.

### Notes to Statutory Financial Statements

---

#### Note 10. Income Taxes (Continued)

The Company's income tax incurred and change in deferred income tax differ from the amount obtained by applying the federal statutory rate of 34% to income before income taxes, as follows:

	2014	2013
Current income tax (benefit) incurred	\$ -	\$ -
Deferred tax expense	-	-
Total income tax reported	<u>\$ -</u>	<u>\$ -</u>
Net loss before income taxes and before capital gains tax	<u>\$ (1,465,181)</u>	<u>\$ (20,497)</u>
	34%	34%
Expected income tax expense at 34% statutory rate	(498,162)	(6,969)
Increase (decrease) in actual tax reported resulting from:		
Change in valuation allowance	1,197,637	(263,741)
Deferred Tax Adjustment	-	47,654
Deferred Tax Benefit on Unrealized Loss	(664,400)	-
Meals and entertainment	5,383	9,830
Deferred Tax Benefit from DTA incr on nonadmitted assets	(24,473)	-
Change in net operating loss	-	241,776
Amortization of IMR	(14,970)	(11,076)
Other	(1,015)	(17,474)
Current income tax reported	<u>\$ -</u>	<u>\$ -</u>

As of December 31, 2014, the Company has operating loss carryforwards of \$6,877,589 that will expire from 2024 through 2029.

As of December 31, 2014 and 2013, there were no federal income taxes incurred that are available for recoupment of future net losses, there were no deferred tax liabilities that were not recognized in determining the net admitted deferred tax asset, the Company did not employ any tax planning strategies, and the Company does not have any tax loss contingencies for which it is reasonably possible that the total liability will significantly increase within 12 months of the reporting date.

#### Note 11. Commitments and Contingencies

The Company is a party to certain claims and legal actions arising during the ordinary course of business. It is management's opinion, after consulting with legal counsel, that these matters will not have a material adverse effect on the financial position and results of operations of the Company.

## American Life & Security Corp.

### Notes to Statutory Financial Statements

---

#### Note 12. Surplus Notes

The following table provides a summary of the Company's surplus notes along with issue dates, maturity dates, face amounts, and interest rates as of December 31, 2014:

Creditor	Issue Date	Maturity Date	Face Amount	Interest Rate
David G. Elmore	September 1, 2006	September 1, 2016	\$ 250,000	7%
David G. Elmore	August 4, 2011	August 1, 2016	\$ 300,000	5%

Any payments and/or repayments must be approved by the Arizona Department of Insurance. On January 4, 2013, the Company paid down \$100,000 of principal and approximately \$7,000 of accrued interest. No payments were made in 2014.

#### Note 13. Subsequent Events

All of the effects of subsequent events that provide additional evidence about conditions that existed at the statements of admitted assets, liabilities, capital and surplus date, including the estimates inherent in the process of preparing the statutory financial statements, are recognized in the statutory financial statements. The Company does not recognize subsequent events that provide evidence about conditions that did not exist at the Statements of Admitted Assets, Liabilities, Capital and Surplus date but arose after, but before the statutory financial statements are available to be issued. In some cases, nonrecognized subsequent events are disclosed to keep the statutory financial statements from being misleading.

Subsequent events have been evaluated through June 1, 2015, the date that the statutory financial statements were issued. At the end of 2014, two mortgage loans were under contract to be sold. The sale was finalized during January 2015.

The Company's and Capital Reserves' investments in Midwest have been sold as of June 1, 2015.
